

Destination Treatment

Anatta Humanversity - Rehabilitation from Addiction with a difference.

Anatta's treatment program is a Single client residential process providing one on one counseling 24/7, accepting clients who come only of their own volition, non-medical, completely confidential, tailor made, facilitated in a luxurious, compassionate ambience. The latest approach being transporting this same module and treating clients at unique destinations across the world - called as **Destination Therapy**.

Destination Therapy - A process that involves a team that travels across the globe in treating our client. We use private islands, or plush properties keeping the client's choices in mind. Details of venues are discussed and finalized with clients directly.

At Anatta, efforts are made to help the individual in recovery to experience the phenomenon of 'Re-joyment' without the support of a chemically driven neurobiological and hormonal effect. This Re-joyment is an essential and final component in the WHO model of recovery. The programme also addresses codependency issues at an equal footing to dependency issue.

Seclusion, natural beauty, peaceful luxurious surroundings and connectivity are the main selection points for destinations in the programme.

Pricing

We have three categories with similar modules of treatment, depending on the exclusivity required, as we assign a different team for each client facility.

1 to 3 Client Ambience In A Plush Villa

Our charges for treatment here, vary anything from 500,000 INR to 700,000 INR for a 4 weeks residential program; the detoxification from the substance being an additional expense to the former. Cost of detoxification is variable, since every client comes to us with different physical and psychological states in withdrawal from the substance. Treatment duration is a minimum of 8 weeks, in a 3-client base setup. The entire treatment is done in our facility.

Exclusive Single Client Space

The charges for a single client based residential treatment process is 20,00,000 INR for 4 weeks. Duration of this treatment module is 4 to 6 weeks, depending on the client's response to the treatment. Here, the therapy duration per day is longer and more intensified. The charges here include detoxification.

Destination treatment

We are attached to private islands and exclusive properties at various verdant destinations across the world. The charges begin from a 100 thousand USD to 300 thousand USD, plus detoxification. The charges for detoxification here would be anything from 20 thousand USD to 40 thousand USD. The detoxification here is done abroad or in India.

N.B. Any hospitalization required for the client during their residential stay with us at any of the above options would be charged at actuals. Details of any of our facilities is imparted only to clients, in order to maintain confidentiality.
